

Poligono

```
classDiagram
    Retangulo --|> Poligono
```

A UML class diagram illustrating inheritance. The 'Poligono' class is the superclass, represented by a light gray rectangle with a black border. The 'Retangulo' class is the subclass, represented by a white rectangle with a black border. A solid blue arrow points from the 'Retangulo' class to the 'Poligono' class, indicating that 'Retangulo' inherits from 'Poligono'.
